

Home Is Where The Heart Is

Firehouse

Do you remember when we were only kids?
Knew everyone in our neighborhood and swore that we would never forget
Well, time flies and the years go by, but memories never fade
I've been gone much too long, gotta get back there someday
But my travelin' days ain't over yet
And no matter how far away
There's one thing I can't forget
Home is where the heart is
But I'm always on the run
Home is where the heart is
Though my journey's just begun
Home's where the heart is
We used to hang out through the day and party all night long
I never thought I'd go away from the place where I belong
But here I am on the road again and my love is miles away
I've been gone much too long, gotta get back there someday
But my travelin' days ain't over yet
And no matter how far I stay
There's one thing I can't forget
Home is where the heart is

But I'm always on the run
Home is where the heart is
Though my journey's just begun
Home's where the heart is
Home's where the heart is
Heart is, heart is, heart is
No matter how far away
The one thing I can't forget
Home is where the heart is
But I'm always on the run
Home is where the heart is
Though my journey's just begun
Home is where the heart is
But I'm always on the run
Home is where the heart is
Though my journey's just begun
Home's where the heart is
I said, home's where the heart is

Home's where the heart is
