

Keepin' It Real (feat. Granger Smith)

Colt Ford

I just wanna make music
Hit the studio, create music
My fans purchase, download and play music
Seek melody, metaphor and rave music
That chill on the sofa and play music
Don't want a beat, just wanna play music
Who am I kidding? I'll beat when I play music and
If her boyfriend is talking smack
I've got that lead your girlfriend away music
I've got that wild, you've got that tame music
I've got that real, you've got that lame music
I've got that cosign, labels wanna sign the work of art
Belong in the Tate music
Grime, rap, UK bass music
That real easy to embrace music, and
Any MC that is thinking they're rough
I've got that punch a man in their face music
That serve you [?] ace music
Black, white, don't watch race music
Still here, kept my faith music
Ten years, never made no fake music
Man have been making that great music
You need to make that stay in your lane music
Cuh 2016, I'll be touring Australia
Second time round like
