Lonesome Road

Br'er Rabbit

Look down, look down
That lonesome road
Before you travel onLook up, look up
And greet your maker
'Fore Gabriel blows his hornWeary of toting such a heavy load
Trudging down that lonesome roadLook down, look down
That lonesome road
Before you travel onWeary of toting such a heavy load
Trudging down that lonesome roadLook down, look down
That lonesome road
Before you travel on
Before you travel on
