Tracks and Tunnels

The Softies

Way too far away, two days
Have another drink on me
Now you're finally freeI wish I could make this train
Go faster than it does
I wish I could make this train
Go faster than anythingTracks and tunnels covered in snow
I should have gone home a long time ago
This seemingly endless fight
Ends tomorrow nightI wish I could make this train
Go faster than it does
I wish I could make this train
Go faster than anythingYou and me both abandon all of our hope
We leave it for somebody else to findI raise my bow and aim
Missing every time the same
No use being angry at anyone
Like we've already doneI wish I could make this train
Go faster than it does
I wish I could make this train
Go faster than anythingI wish I could make this train
Go faster than it does
I wish I could make this train
Go faster than anything
