

# Tracks and Tunnels

## The Softies

Way too far away, two days  
Have another drink on me  
Now you're finally free I wish I could make this train  
Go faster than it does  
I wish I could make this train  
Go faster than anything Tracks and tunnels covered in snow  
I should have gone home a long time ago  
This seemingly endless fight  
Ends tomorrow night I wish I could make this train  
Go faster than it does  
I wish I could make this train  
Go faster than anything You and me both abandon all of our hope  
We leave it for somebody else to find I raise my bow and aim  
Missing every time the same  
No use being angry at anyone  
Like we've already done I wish I could make this train  
Go faster than it does  
I wish I could make this train  
Go faster than anything I wish I could make this train  
Go faster than it does  
I wish I could make this train  
Go faster than anything
