

Cold Company

Minus The Bear

feel your hand on the rock
roll the rock up the hill
what did you do to deserve this hell
when you get to the top
watch it roll down again
are you pushing up the sun
or dragging down the moon?
did your feet get wet
when she came after you?
keep your hand on the rock
it will finish you if you stop
cold, cold company
forgive me
this ain't my stone
this ain't my stone to roll
skin on my hand can't take it anymore
feel her hands on your back
feel the world go black
no future and no past
here, now, alive at last
feel your hands on the rock
roll the rock up the hill

if i slip into this dream
when i awake it's the same
keep your hands on the rock
it will finish you if you stop
cold, cold company
forgive me
this ain't my stone
this aint my stone to roll
my aching feet can't stand it anymore
life goes on and on
outside in the cold
inside the barber waits
waits his turn
cold, cold company
forgive me
this ain't my stone

this aint my stone to roll
my aching feet can't stand it anymore
cold, cold company
forgive me
this ain't my
this ain't my stone to roll
skin on my hand can't take it anymore
