When We First Met

Hellogoodbye

When we first met your hair was long and brown
You haven't yet cut it all off
And now it's long once again, oh
Oh, it's long once again
As I kept track of every haircut
That we ever had
I could, I could see how long it had been, oh
Oh, how long it had been
And this thought, made it clearer
I ought to be nearer
All I see is where our days repeat
And our love goes on
As our hair grows long
Oh, Chelsea Lynn
I watched your hair grow from the root to tip
I know, I know I have always known
And I always will know
That I could have a single direction until I am dead
I'll go, I'll go as I always have gone
And, and I always will go
This thought made it clearer
I ought to be nearer
All I see is where our days repeat
And our love goes on
As our hair grows long
As our hair grows long
As our hair grows long
