Jesus

Dom

The tears are about to begin
And the ecstasy is kickin in
We're gettin ready for the next phase
Please take me to a different placeI want to feel it in my heart again
Jesus baby fill me with your love again
Gimme gimme somethin to believe in
Pink mercedes fill me with your love againI wanna party in the basement
And dance barefoot on the cold cement
I wanna make out in a movie yeah
Do the things we did back thenI want to feel it in my heart again
Jesus baby fill me with your love again
Gimme gimme somethin to believe in
Pink mercedes fill me with your love again
