

# Simple Girl

Nelson Freitas

I'm in the club  
Moët Chandon in my cup  
Beautiful ladies all around me  
All of them calling me papi  
I'm not looking for love  
A one-night-stand is more likely  
'til I started getting all excited  
I love this girl cause she's so feisty (feisty) Then she started acting up  
Tellin me she ain't no groupie  
Hating on the ladies that surround me  
She told me she's not feeling my music (no)  
I almost gave up  
But damn that baby got booty  
Really wanna take this girl home with me  
She told me if you wanna seduce me  
You just  
Just bring me a flower  
Cause I'm a simple girl  
All I need is a single rose  
And you will rock my world  
I want to make you come  
Your juices flowing over my body Damn the girl's so sexy  
Beautiful from her head down to her feet  
And she could be the one  
I'm feeling her style, her beautiful smile  
But she's playing hard to get but that's how I love 'em  
So so bring it  
Then she started acting up  
Tellin me she ain't no groupie  
Hating on the ladies that surround me  
She told me she's not feeling my music (no)  
I almost gave up  
But damn that baby got booty  
Really wanna take this girl home with me  
She told me if you wanna seduce me  
You just  
Bring me a flower  
Vause I'm a simple girl  
All I need is a single rose

And you will rock my world  
Now it seems she's coming home tonight  
And she will be with me until the morning light, yeah
