

So Special

Letoya

There ain't never been an 'I' in team
We win together, lose together, he loves me

Such an amazing feeling
From this real love he's giving
He's got me so caught up
With the way he's loving me
And it's how it's supposed to be
His love is so crazy

All my ladies hear me out
If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
All my ladies hear me out
If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
My baby lets me run with the boys
Lets me hold the keys to his toys

Whatever he gets I get
I know every one of his secrets
Every weekend shopping sprees
Trying on them clothes, he waits for me
The kind of guy every woman needs

Ohh, his love is so crazy
All my ladies hear me out
If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
All my ladies hear me out

If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
All my ladies hear me out
If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
All my ladies hear me out
If your man's here point him out

Got a good man, make it official
All my ladies say he's so special
All my ladies say
If you got that Mr. Right
If you got a good man in your right
Let me hear you say yeah
Say yeah
If you got that Mr. Right
If you got a good man in your right
Let me hear you say yeah
Say yeah
All my ladies hear me out
If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
All my ladies hear me out
If your man's here point him out
Got a good man, make it official
All my ladies say he's so special
If you got a good man
