World Gone Mad

Seasons After

World Gone Mad

Verse 1
I've seen what happens when the wolf eats the lamb
Lost my mind so many times
That I forgot who I am
I'm not afraid
Scared of the fall
I try to face demons alone
Pre
I need a place safe and obscure
Cuz I can't replace
What is dead in my heart

Chorus
It's world gone mad
And you know it
It's a world gone mad
And you know it all already
Cross the line it's justified
Don't let them see the fear in our eyes
We all have scars to compare
When we all have the crosses to bare
Verse2
We watch it happen lives are lost in a blink
We pull the trigger then we wish the gun would take time to think
I'm not afraid scared of the fall
We gotta face our demons alone
Pre
Chorus
Bridge
You wanna talk about it
My thoughts are flammable
Became in a cannibal
In a world full of animals
Now I'm the wolf that eats the lamb
It's just like murder scene
Starve out the beast that feeds
The lies that I choose to believe

Twisting and turning in me
Chorus
