

# Story Untold

## Nutmegs, The

Well here in my heart there's a story untold  
Of a girl who left me standing standing in the cold  
And since she's been away  
I've never had a happy day  
I hope and I pray that she'll hear my plea  
And maybe someday she'll come back to me  
For here in my heart there's a story untold  
But after all you've said and done you said we'd be as one  
But darling  
I found I was wrong  
But what did you do right from the start  
You made of fool of me and then you broke my heart  
Well I hope and I pray that she'll hear my plea  
And maybe someday she'll come back to me  
For here in my heart there's a story untold a story story untold
