

Crystal Ball

Candlemass

Black heart, your soul is mine, mine
Gaze into and the secrets you'll find, find, find
Just read the signsGaze into the crystal, see what it tells
It can bring you all fortune, do you so well
Visions and dreams you can see in the crystal ball
The crystal ball, in the crystal ball, the crystal ballI saw the rainbows end, I am raptured I cannot pretend
I have found Atlantis, the talisman of SethGaze into the crystal, see what it tells
It can bring you all fortune, do you so well
Visions and dreams you can see in the crystal ball
The crystal ball, the crystal ballI have seen it all, listen to the crystal ball
Tell me more I want to know, please hear my callGaze into the crystal, see what it tells
It can bring you all fortune, do you so well
Visions and dreams you can see in the crystal ball
The crystal ball, the crystal ball
Crystal ball
