Stronger (feat. Garrett Clayton)

Meredith O'Connor

STRONGER

You're so strong on your own
You've weathered every storm
you made it this far with no one by your side

you'll say you don't need one
and i know you'll be fine
but let me be your hero like you're mine

I will be your bridge over the water
You will be the light to guide me home
With your strength I know that I'll go farther
Than I ever could on my own

CHORUS
Nothing nothing can break us down
Nothing nothing can touch us now
There's nothing stronger than love
And nothing nothing nothing is stronger
Than Us

I shine brighter
I'm a fighter
When I'm with you
I can do anything

I'm a dreamer
You're a believer
And together
We can do anything

Bridge
An earthquake can shake this land up
So strong that you couldn't stand up
Well it's not enough
To be stronger than us

And this whole world can never faze me
Even when life gets crazy

No matter how rough
It's not stronger than us
