

Bottom of a Bottle

Smile Empty Soul

I've been scared and lonely
I've asked myself "Is something wrong with you?"
My girlfriend told me
I need some time alone to deal with issues But something makes me carry on
It's difficult to understand why I always wanna fight I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom of a bottle You always call me
And ask me how I make it through the day
I'm always fallin'
I guess it's just God's way of makin' me pay But something makes me carry on
It's difficult to understand why I always wanna fight I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom of a bottle I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom of a bottle And I, I wonder why I try
And I, I wonder why I bother
And I, I wonder why I cry
Why I, I go through all this trouble I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom of a bottle I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom of a bottle
