

# Electricity

## Kerbdog

I'm an artist honey you'll see me sometimes  
Making crazy pictures out of music and rhymes  
    Costume changes performed with poise  
    Dancing in formation with a couple of boys  
I take them on the road with my reel-to-reels  
I'm an artist honey you know how that feels?  
    It's the greatest show with the best effects  
        Since Disco-Tex and the Sexelettes  
    It's the greatest show with the best effects  
        Since Disco-Tex and the Sexelettes  
    It's all about wonder the power to be  
        Like thunder expressing electricity  
    It's the greatest show with the best effects  
        Since Disco-Tex and the Sexelettes  
        Disco-Tex and the Sexelettes  
        Call it performance, call it art  
    I call it disaster if the tapes don't start  
    I've put all my life into live lip-sync  
I'm an artist honey you gonna get me a drink?  
    It's the greatest show with the best effects  
        Since Disco-Tex and the Sexelettes  
    It's all about wonder the power to be  
        Like thunder expressing electricity  
    It's the greatest show with the best effects  
        Since Disco-Tex and the Sexelettes  
        Disco-Tex and the Sexelettes
