

# Come Around

[Justin Hines](#)

Send a message to the raging winds  
When the world has left you cold again  
'Cause for every battle not yet won  
There is virtue to be found in the sun You'll come around  
And you'll come around baby You can almost hear those voices now  
That we're ready to be free somehow  
For the troubled reasons, they come on strong  
But fear not my brothers, it won't last long Now come around  
Now, come around people yeah  
Oh now come around  
Oh, now come around, round round And if we care when we cry then I tell you now  
We'll find higher ground  
Oh and I'm singing out...  
To the ones who are left behind to come around  
Oh, now come around Just send a message to the raging winds  
That your heart is ready for love again  
'Cause for every battle not yet won  
We will find our virtue...find it in the sun Now come around  
Now come around people, yeah  
Oh, now come around  
Oh, now come around, round, round Oh, now come around  
Oh, now come around people  
Oh, now come around  
Oh, now come around, round, round
