## My Morning Jacket

So, I do believe  
None of this is physical  
At least not to me  
So, I do believe  
That anywhere it goes  
It's always with me  
It's not the dream  
That makes you weak  
It's not the night  
That makes you sleep  
But it's a voice  
And it's a choice  
To call you out or stay at home  
So! I do believe  
None of this is physical  
At least not to me  
So, I do believe  
That anywhere it goes  
It's always with me  
It's not the beast  
It's not the sheets  
So soft and warm  
All over me  
But, it's the touch  
You need so much  
To move around  
On this green earth  
Take your money and your drugs  
Take your money and your drugs  
To anyone who wondered  
What old Jebus meant to me  
Take him out to go diving  
In Red Patoka Sea  
The brain melts in the twilight  
With the boar and moving trees  
Your skin looks good in moonlight  
And god damn, those shaky knees  
The fact that my heart's beating  
Is all the proof you need
