

Sorry

Jebediah

[Verse 1:] I'm sorry that I fucked things up And I'm sorry that sorry is never enough But still I'm sorry I screwed your plans But if everything's cool then I know not we could do Yeah let's walk down to the school We can watch the kids run home And pretend that we're alone Just like we used to be then [Chorus:] Cos you never really know how But it's harder to go back right now Go and change and then change again And the things that you once knew then And the things that you once knew then But it's harder to go back right now Cos you never really know how Go and change and then change again [Verse 2:] I'm sorry that I wasted your time And I'm sorry I wish you'd go waste mine And the things that you do that I always thought were cool Now I know it's only you so it's me that's been the fool Cos I never even knew that's why I hate myself right But that won't happen (won't happen) cos you're too nice [Chorus]
