Serpent's Kiss

Symphony X

Covering me into of
Pure corruption
Seek my drifted being to you
Swallow move up
Sheer destruction
Nightmare through and throughIn a hour
I'll devour
Hope swallow their big pain
Taste the venom
Feel the power
cursing through my veinsAll corruption
All destruction through and throughTrust in me, for
I will set you free
With the serpent's kiss
With A serpent's kiss
OohhBe my like, I wont say
Make me pay
Make me pray
Tell me when to laugh or cry
When to live and
When to dieForgoted and betray
Wrathed and decay
Lent to leave them advised
Let this leader without a choice(Solo)Crucifier, spitting fire
See your middle empty prayers
This empire growing higher
To this spider I swear
Shot on service like a raiser
Swimming in a sea of rage
Thin decades, masquerades
All the worth must stageHow devoured
I am proudly a God of painTrust in me, for
I will set you free
With the serpent's kissI'm putting compromisse
With the serpent's kiss
Oooh
