Not My Daddy

Kelly Price

You're not my daddy, you're my man
I think it's time you understand
So just make me happy if you can, oh
I'm not your mama, I'm your girl
And I am the lady in your world
And loving each other is how we work, oh
Trust, I found that there's no love
It's true no matter what you tried
Us, there can be no us
Unless we find the strength to fight
I spy, you see, you watch, I peak
So what are we doing with our love?
It's not how it's supposed to be
You're not my daddy, you're my man
I think it's time you understand
So just make me happy if you can, oh
I'm not your mama, I'm your girl
And I am the lady in your world
And loving each other is how we work, oh
Sure, are we really sure?
Maybe we should close the door
Oh storms, we're trying to stand the storms
We've been holding on, you know
I pray, you weep, you cry, I speak
So what are we doing with our love?
It's not how it's supposed to be
You're not my daddy, you're my man
I think it's time you understand
So just make me happy if you can, oh

I'm not your mama, I'm your girl
And I'm the lady in your world
And loving each other is how we work, oh
Oh, please talk to me with sweet words
Like when we me
Ooh say it, oh yeah, scream it
Change the language that we're talking
I'll just get to walking
Baby, baby

You're not my daddy, you're my man
I think it's time you understand
So just make me happy if you can, oh
I'm not your mama, I'm your girl
And I'm the lady in your world
And loving each other is how we work, oh
You're not my daddy, you're my man
I think it's time you understand
So just make me happy if you can, oh
I'm not your mama, I'm your girl
And I'm the lady in your world
And loving each other is how we work, oh
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my
