Saturday Night

Noisettes

I've waited for so long
Put up with your shenanigans
I'm going to take you on
And you won't know the half of it
I'm gonna put you in your place
You got the queen, I've got the ace
I'll light you up and smoke you down
And watch the rings go round and round
Oh, oh, oh oh oh
This is war, war
Woah
Saturday night
Saturday night
Now I don't know what went wrong
Thought you would get away with it
Now the band are playing your swansong
And you shall know the wrath of it
You could have said it to my face
Any time or any place
I'll light you up and smoke you down
And watch your walls come tumbling down
Oh, oh, oh oh oh
This is war, war
Woah
Oh, oh, oh oh oh
This is war, war
Woah
Saturday night
Saturday night
It's Saturday night
Saturday night
I'm gonna put you in your place
You got the queen, I've got the ace
I'll light you up and smoke you down
I'll watch your world come crashing down
Oh, oh, oh oh oh
This is war, war
Woah
Oh, oh, oh oh oh

This time it's war, war
Woah
Saturday night
Saturday night
On Saturday night
Saturday night
Saturday night
