

Spots

Ariel Abshire

Youâ€™ve got spots on your skin
Your eyes and mouth
Are thinning out
Donâ€™t act like it isnâ€™t true
Your spots are cute
Just like you

We grew up in a place
Where time quickly decays
And what a waste of ours
Like back with the old ways
Staring at your face for hours a day

But oh, I am walking down the street
Thereâ€™s something about you
You see I would never wanna be any where
Without you

You have clouds in your eyes
Which I learned to despise
And what a waste of time
Searching yet I could never, ever
Never find a sign

But oh, I am walking down the street
Thereâ€™s something about you
You see I would never wanna be any where
Without you

Oh, I am walking down the street
Thereâ€™s something about you
You see I would never wanna be any where
Without you
