

Christmas Everyday

Unspoken

Tell me why do we wait 364 days
To slow down and stop
Remember how blessed we are
So we're trading in the wish list
All the things we never needed
Let love fill up our hearts All year we should remember
Remember how blessed we are We don't need lights, we don't need snow
If we're got the faith then we've got the hope
Through the year we don't have to wait
Cause it's Christmas everyday
Can you hear the angels sing
Let the love in your heart be the gift you bring
And put a smile of someone's face
Now it's Christmas everyday Oh oh oh, woah (x3)
Now it's Christmas everyday From the hanging up the mistletoe, everything is so white
Your neighborhood is like a snow globe and it feels so right
And when the winter wind blows outside it may be so cold
But if you've got the love inside and maybe feel your soul glow Now we're in the colder weather and the family
is together
Gathering 'round the fire, caroling like a choir
If love's the gift we share
Then we don't need to care about the season cause we've always got a reason
To give ourselves a way
To give ourselves a way Oh oh oh, woah (for the whole world) (x3)
Now it's Christmas everyday
