

# Used for Glue

## Rival Schools

Days of the conflicts you've been in  
Traces of conscience you don't want to hear  
You hear it now  
You listen, hear a sound  
You missed it Taken by conscience or taken by guilt  
You live in the problems you decided to build  
You hear it now  
You listen and hear a sound that can't be still The blame is found, you got it  
Rode when she was new  
But wasn't told when she was through  
Yeah Dazed for time you were into  
Praise from the crowd that you wanted to fool  
You call them now, they're waiting  
To hear a sound that can't be still
