Ride the Sky

Trouble

Traveling this dark world, leaving light behind
Seeing things I shouldn't see
New eyes I got to find
Mars Venus and stars shaking their heads at me
No more todays - tonight I'll be riding the skyHey world look out I'm coming
Friends pass me by and you saw me humming
Mars Venus and stars shaking their heads at me
No more todays - tonight I'll be riding the sky
Tonight ride the sky, tonight ride the skyThe smile on his face turn me to stone
The words that he spoke
wouldn't leave me alone
Mars Venus and stars
shaking their heads at me
No more todays tonight I'll be riding the sky
Tonight ride the sky, tonight ride the sky,
Tonight ride the sky
Tonight ride the sky ...(Lucifer's Friend Cover)
(Peter Hesslein | John Lawton, November 1970)
