More

Moushumi

I wanna know where your mind goes when you're all alone
I wanna know what you're thinking of deep down inside your bones
I wanna know where your soul lies, if it's next to mine
I wanna know if your heart beats fast, are you keeping time?
Are you keeping time?

Take me into your world, world
Take me into your world
'Cause darling
I need more
I need more

I wanna know how your brain works, do you start to think if
I wanna know does your body ache, holding all the lies in
I wanna know if you thoughts are black, or are they red like mine?
I wanna know why you're holding back, i know that you're not fine

Take me into your arms, arms
Take me into your arms
'Cause darling
I need

Take me into your world, world
Take me into your world
Take me into your world, world
Take me into your world

'Cause darling
I need more
I need more
I need
