

# Never Die

## Blitz Kids

I never thought that this could ever break our silence  
This is more than what I ever thought it'd be  
It comes in waves to break the boundaries of our vices  
All our fears are kept desires and our dreams  
As time lays ache  
Our bodies break  
But legend outlives allScream it to the sky  
We'll never dieOh brother, you were born a champion in no-one's eyes  
And sister, you were never bred for something more  
You never had the means to trust your own convictions  
But in this life you learn to fly or 'cede to fallScream it to the sky  
We'll never dieI know that you are void of hope and all direction  
But look upon yourself tonight  
There's a voice in you that leads without confliction  
There's a light you cannot see yetScream it to the sky  
We'll never die
