

# Screamin'

## Macy Gray

Don't hear nothing but bad news lately,  
and all my family has gone crazy  
but I guess it don't matter since the work is gonna end.  
Gonna make a change at least I'll try to - will they notice when I do?  
And if I don't make it will you still be my friend?  
So baby tell me when I'll see you again -  
it'll all be better.All of my troubles they go away  
when you're on top of me loving me down,  
making sounds and it's so good I am screaming.Make you wanna throw your hands and holler,  
crying cause I miss my father -  
when will we get out the mess we're in?  
all I want to do is reach the sky -  
don't want to have to die to do that  
Where on earth is my heaven?  
So baby tell me when I'll see you again -  
it'll all be better.All of my troubles they go away  
when you're on top of me loving me down,  
making sounds and it's so good I am screaming.In each other's arms we're safe.  
Why don't we just stay that way? -  
making love and loving all the time.All of my troubles they go away  
when you're on top of me loving me down,  
making sounds and it's so good I am screaming
