Our House

Burn Halo

Don't cross that line if you don't wanna find what it feels like
'Cause I know you'll be running with your tail between your legs like a dog
You better bring all your guns, get 'em loaded 'cause it's almost game time
It's gonna be old time, shoot 'em up, knock down, drag 'em out
We've got our pride so choose your side
This is our house, this is our house
Tell 'em what they get when they come inside
Say it loud this is our house
You crossed that line, now it's time for you to know what it feels like
Gonna put you in your place, don't think you want no more
You've got your face in the ground, stay down if you wanna leave tonight
It was a motherfucking shoot 'em up, knock down, drag 'em out

We've got our pride so choose your side
This is our house, this is our house
Tell 'em what they get when they come inside
Say it loud this is our house
This is our house, this is our house
Tell 'em what they get when they come inside
Say it loud
Tell 'em what they get when they come inside
Say it loud this is our house, this is our house
This is our house, this is our house
