

Wasted Love

ROXXI

Roxxi -Wasted love (Drive it to ya hard)album
Girl,its been a long time coming
feelings you can't ignore
if now,after all this time
Your runnin back for more
The day that you left me
standing out in the cold
Sometimes, you win the game
Baby,sometimes you don'tI'm standing tall
don't need your wasted love
It's never enough to get you
what you want
wasted loveBabe,you took our love for granted
never gave in return
If I were the gas and you the fire
Light the page and watch me burn
I know there are times have changed
Ain't no use in talking
No sense in rearranging
The juries in start walkingI'm standing tall
don't need your wasted love
It's never enough to get you
what you want
wasted loveWon't take the fall don't need your wasted love
Its never enough to get you what you want
wasted loveI gave you my heart
then you threw it away
I'm standing tall
don't need your wasted love
its never enough to get you what you want
wasted loveWon't take the fall don't need your wasted love
It's never enough to get you what you want
wasted love
