

# Wrecking Ball

Max Milner

You and me I never crossed the line but now your cross at me,  
Desperately tryna find the words so i can justify me,  
Secretly I'm hoping she can turn a slight blind eye on me, yeah, I'm just another brother runaway,  
And I'm just another prisoner they say,  
I've been walking round thinking bout what I did wrong,  
Tryna find a part of me that makes me feel like,  
I've been the guilty one guilty one, She treats me like a wrecking ball,  
But I don't feel like I've been wrecking it all,  
I started slacking and she's on my back -  
    Oh my lord,  
    Oh my lord,  
    If you take a step back,  
    Break this fool,  
These games we played turned into war,  
Yeah, the paper beats the rock but it's -  
    Just round one,  
    Just round one,  
Fake mistakes - I ain't been making, You ain't been listening to me,  
I ain't playing the victim when you've been vindictive to me,  
    Constantly,  
Verbally exploding over petty things, I'm just another brother run away,  
I'm just another prisoner they say,  
I've been walking round thinking about what I did wrong,  
    You switched the page enough on me -  
to make me feel like I was the guilty one, the guilty one She treats me like a wrecking ball,  
But I don't feel like I've been wrecking it all,  
I started slacking and she's on my back -  
    Oh my lord,  
    Oh my lord,  
    If you take a step back,  
    Break this fool,  
These games we played turned into war,  
Yeah, the paper beats the rock but it's -  
    Just round one,  
    Just round one,  
Fake mistakes - I ain't been making Oh oh oh oh -  
    She'll never let me go,  
    She'll never let me go,  
    Oh oh oh oh -

I'm slipping away from her,  
It seems like our roles reversed, She treats me like a wrecking ball,  
But I don't feel like I've been wrecking it all,  
I started slacking and she's on my back -  
    Oh my lord,  
    Oh my lord,  
    If you take a step back,  
    Break this fool,  
These games we played turned into war,  
Yeah, the paper beats the rock but it's -  
    Just round one,  
    Just round one,  
Fake mistakes - I ain't been making none
