

# Can I (Intro)

## Tank

You've been on my mind, hope you got some time  
For what I'mma put your body through  
You been talking fact like it's good as cat  
And now it's time for you to show and prove I'mma put it down, down  
I'mma stay a while, while  
Judging by the sound, sound  
You want it and you need it right now Can I make love, love, love, love  
Love to you  
Can I make love, love, love, love  
Show you how I do Can I put it in your life?  
Give it to you right  
You been all alone  
But daddy's here tonight Now can I make love, love, love, love  
Love to you I like to go hard, let me raise the bar  
Bet I bring the freak up outta you  
You say that it's on, magnums and patron  
Baby, I'm about to act a fool I'mma put it down, down, down  
I'mma stay a while, while, while  
Judging by the sound, sound, sound  
You want it and you need it right now Can I make love, love, love, love  
Love to you  
Can I make love, love, love, love  
Show you how I do Can I put it in your life?  
Give it to you right  
You been all alone  
But daddy's here tonight Now can I make love, love, love, love  
Love to you Tell me how you want it, I'mma jump up on it  
Till ya body scream, yeah  
I know how you need it, I know how to please it  
Baby, you gone see, yeah I was thinking deeper, make ya body weaker  
Give it all to me, yeah  
I'mma do you right, oh, if you let me Can I make love, love, love, love  
Love to you  
Can I make love, love, love, love  
Show you how I do Can I put it in your life?  
Give it to you right  
You been all alone  
But daddy's here tonight Now can I make love, love, love, love  
Love to you Make love to you, oh

Make [Incomprehensible]
