

Strange

[R.E.M.](#)

Theres something strange going on tonight
Theres something going on thats not quite right
Michaels nervous and the lights are bright
Theres something going on thats not quite rightTheres something going on that wasnt here before
Keep your eyes glued to the floor
Theres something strange going on tonight
Theres something going on thats not quite rightTheres something strange going on tonight
Theres something going on thats not quite right
Michaels nervous and the lights are bright
Theres something going on thats not quite rightTheres something going on that wasnt here before
Keep your eyes glued to the floor
No ones going to say goodnight
Theres something going on thats not quite right
