Standing On the Edge

C21

Life is more than
Just a feeling
And love is more
Than you and meNo matter what
This world can't stop me
No matter how
It's gonna beAnd I just need to know
You will be there
And catch me if I fall
Cause I'm going high high highI'm standing on the edge
I never been so high
Break jump and fly
I can reach the skyI'm standing on the edge
I never been so high
Break jump and fly
I can reach the skyNo matter what
This world can't hold me
No matter how
I'm gonna tryI must be human for a reason
No matter what
This world is me
