The Secret Of My Success

Night Ranger

Think of it, I, hold the world in the palm of my hand
Run a comb through my hair, head on out for some new foreign land
And all this could seem like a dream out the door
With everyday people, face down on the floorI always said I could make it and be who I am
There's a new look in sight, what a change for the new modern man
With all this it seems, like I'm dying for more
The streets are on fire, never seen it before
It's like the sound of electric guitarsWorlds collide and hearts will be broken
Over and over it's the same every day-
How can I say what has never concerned me
The secret of my success is I'm living 25 hours a dayIt's amazing to me, what a fool will believe to bet by
With a change of your mind, I can live, I can fly
The harder the come, the harder they fall
I never say maybe and I go for it all
Just like the sound of electric guitarsWorlds collide and hearts will be broken
Over and over it's the same every day-
How can I say what has never concerned me
The secret of my success is I'm living 25 hours a dayWith nothing to show, just sweat form my soul
My heart's on the line and I'm dying to go (dying to go)
Look at us now, gonna make it somehow
Hold on to me baby, can't hold me downWorlds collide and hearts will be broken
Over and over it's the same every day-
How can I say what has never concerned me
The secret of my success is I'm living 25 hours a dayThe secret of my success is I'm living 25 hours a day
25 hours a day
