# Witness (DJ Scud Remix)

## Asian Dub Foundation

We never had it so goodDay to day It's the government plan
To grind them down Every man and woman
To grind them down Every man and woman
To grind them down Every man and womanDay to day It's the government plan
To grind them down Every man and woman
To fuck up their minds
Put their lives in their hands
To smash up their brains
Unable to understand
This is a message to those in command
There was never any freedom
Just castles built on sand
