Born Too Slow

The Crystal Method

Just like seventies goof balls he's waiting on last calls
Well listen to method man, 'cause if you leave on the last line
Don't leave on the ground kind, born just a little too slow
Just a little too slowJust a little too oh your lives are more than two just a little too
Oh just a little too, 'cause if ya picture the wrong kind
You'll know you'll be turnin' blind, got outta your head
Bangin' tail just the wrong way you'll know that you're turnin' gray
I'm just a little too slowOh your lives are more than two, more than two, more than too slow
Oh your lives are more than two, just a little two, just a little too
Your lives are more than two, just a little too
Oh your life's are more than two, just a little too slow'Cause if you leave on the last line don't leave on the ground kind
Well listen to method man 'cause if you leave him callin'
You'll know you'll be fallin' lights are bummin' low
Your shot off and bum and go, lives are bummin' low
Your shot off and bum and go, born just a little too slow
