

# Engine Light

## Big Head Todd and the Monsters

Yes, I want to get it but I can't chawl  
Till she gets around to what she came for  
If you're into the sound then get your dance on  
One you can't cut it with a chainsaw I just want you next me  
Come on engine, light in your heart  
Turn on for me, or at least flicker slowly  
Love is gonna sound the alarm You are my one you are my only  
Yes, I wanna ketch her but she breeze by  
Chasin' the wind and the winter sky  
Droppin' my keys, I'll let you take my ride  
I just want you kissin' me I know what you said but you can't mean by  
Trouble with the man he ain't rich now  
He's a serious dude, he ain't Rip Torn  
Prayin' for rain, he get a hailstorm  
I just want you, me
