Highwire

Gin Blossoms

I wanna take you so far But they don't want to let us out But they do, they do, they do I don't wanna walk on that highwire They ain't gonna let us down But they do, they do, they do What I could never believe in I was never really evenAnd I forgot about the cost And then I got lost, I got lost, I got lost, I got lost Didn't really wanna live it over Or even wanna live it downBut I do, I do, I do What I could never believe in I was never really even And I forgot about the costAnd then I got lost, I got lost, I got lost, I got lost Didn't really wanna live it over Or even wanna live it down But I do, I do, I do
