

# Genocide

## Sodom

This is the dark side of humanity  
To liberate treacherous insanity  
You can't ignore the truth behind  
That followed us until the end of time  
You see the stars and the night is done  
You see the death and the life is gone  
Confused by the rules who'll take control  
There is no God  
The sacred halls of truth  
That bitterness on youth  
I heard the whispered tales  
Of glory and of death  
Of immortality into their destiny  
We fight the holy fire  
While feeding Satan's flames  
Genocide, elimination  
Demented minds  
Genocide, extermination  
Tortured lives  
Sitting on a time bomb with a primitive design  
Wish we got the spirit and the power to survive  
The final day is close to us, the right to live refused  
We gonna wake 'em up to kill the multitude  
No revolution set us free to break the line  
Answers lost before somebody asking why  
Just one bullet left for perpetual sleep  
Locked up in a cage, kicked away the key  
The sacred halls of truth  
That bitterness on youth  
I heard the whispered tales  
Of glory and of death  
Of immortality into their destiny  
We fight the holy fire  
While feeding Satan's flames  
Genocide, elimination  
Demented minds  
Genocide, extermination  
Tortured lives  
The sacred halls of truth  
That bitterness on youth  
I heard the whispered tales  
Of glory and of death  
Of immortality into their destiny  
We fight the holy fire  
While feeding Satan's flames  
Genocide, elimination  
Demented minds  
Genocide, extermination  
Tortured lives
