

# Radiate

## Fleming & John

I've got this feeling that I can't contain, being with you  
Is like winning the publisher's clearing house sweepstakes  
Like a snow day and I get to sleep as late as I want to  
You know, you turn me into goo You radiate, warm fuzzy feelings  
You radiate, warm fuzzy feelings If everyone knew someone like you there wouldn't be any war  
You glitter, sparkle, twinkle, shimmer like a shining star  
Now, I don't want to say anything mean  
Or hurt anybody's little heart again  
Next time I'll hold my breath and count to ten I wanna radiate, warm fuzzy feelings  
You radiate, warm fuzzy feelings  
I wanna radiate, warm fuzzy feelings  
You radiate, warm fuzzy feelings, warm fuzzy feelings I radiate to you, you radiate to me, yeah  
We'll start a revolution, spread a warm, fuzzy disease  
You make me feel so good  
I wanna wear day glow, I'm feeling unicorns and rainbows Warm fuzzy feelings, I got a warm fuzzy feelings  
I've got a warm fuzzy feeling reeling deep down in my soul
