

# Close to the Vest

## The Band Royale

itâ€™s too late  
the trainâ€™s already gone  
thereâ€™s a wise guy on the left  
and he canâ€™t see whatâ€™s in your head  
if he could  
it wouldnâ€™t make much difference  
heâ€™d never live to tell  
stuck in someone elseâ€™s hell  
thereâ€™s no need to worry  
this thing it must be done  
this battle must be won  
by any means necessary  
youâ€™re just scared growing old  
and so am I  
we play close to the vest  
never mind what the rest do  
weâ€™ve always done it better  
weâ€™ll always do it best  
we canâ€™t come from the heart  
we canâ€™t stop once we start to  
so forget all the rest  
we always do it best  
right here  
drop that burden that you carry  
i know it weighs a ton  
i know this all seems scary  
but soon enough it will all be done  
and the right side will have won  
yeah the right side  
so play it close to the vest  
never mind what the rest do  
weâ€™ve always done it better  
weâ€™ll always do it best  
donâ€™t you come from the heart  
you canâ€™t stop once you start to  
so forget all the rest  
we always do it best  
play it close to the vest  
i almost forgot to say what we came here for

there's no use in lying  
loose ends need tying  
so take these pills and go to sleep  
when wake up you'll be free  
you won't even know me  
it will be wonderful  
i play close to the vest  
i don't care what the rest do  
i always do it better  
i always do it best  
i won't come from the heart  
i can't stop once i start to  
never mind all the rest  
baby it's for the best
