

Life At the Top

Bad English

He looks like De Niro
She's his Brigitte Bardot
And that's enough to hang around
With those who think they know
But if you've got the image
And symbols of success
You must be doin' something right
To keep up with the Jones's They made it from the castin' couch
The sex was rock 'n' roll
They're everybody's business
Inquiring minds must know
Every slummy little detail
Every superficial move
And you can buy it retail
In pink and black and blue She said, "Take me walkin' where the surf is slow"
He said, "What's wrong with right here, I got places to go!"
Life at the top
Down on your knees
Don't stop, don't stop, give it to me
Life at the top
Where nothin' is free
It's alright, alright baby won't you live it with me?
Ah If you get up on the table
You're gonna lose your place
In the city of angels
Where fame's a state of grace
If you need a plastic surgeon
Honey, I know an ace
You can't change your past
But he can change your face She said, "Take me walkin' where the surf is slow"
He said, "What's wrong with right here, I got places to go!"
Life at the top
Down on your knees
Don't stop, don't stop, give it to me
Life at the top
Where nothin' is free
It's alright, alright baby won't you live it with me? He said, "Baby take me far away from here"
She said, "You already arrived, can't you see yourself clear?"
Life at the top

Alright alright
Shakin' the money tree
Alright alright
Give it everything you got
Alright alright
Shake it one time for me, oww!
Don't stop, don't stop Life at the top
Down on your knees
Don't stop, don't stop, give it to me
Life at the top
Where nothin' is free
It's alright, alright baby won't you live it with me?
Life at the top
Down on your knees
It's alright, alright baby live it with me
Life at the top
This stealin' thing you got in the land of the free
Don't stop, don't stop
So come on baby why won't you, why don't you it steal from me? Life at the top
My my my my my my yeah
Life at the top
It's alright
Life at the top
It's alright
In real life
Life at the top
Alright yeah
In the city of the angels
You can get it where you want it
Get it where you want it
Get it where you wanna
Want it
Want it to be
