We Are the Generation

Roy Fields

Time fades and days go by
Earthquakes and buildings
Falling from the sky
And yet a new day breaks
And there's still
Another reason why to live

We are the generations
Who will stand and fight
In the midst of all the darkness
We'll carry the light

We are the generations
Who will stand and fight
In the midst of all the darkness
We'll carry the light

We'll carry the light inside,
We'll carry the light inside.

Father's fail and children hide
Hearts are broken from the hurt
They have inside
And yet a new day breaks and
There's still another reason to live

We are the generations
Who will stand and fight
In the midst of all the darkness
We'll carry the light

We are the generations
Who will stand and fight
In the midst of all the darkness
We'll carry the light

We'll carry the light inside,
We'll carry the light inside.

You are the light of the world

And the God of the cross!

Now's the time
And it's the day to stand
The heart can now be mended
By the power of God's own hand
It's a new day and now it's time
For the saints to shine

We are the generation
Who will stand and fight
In the midst of all the darkness
We'll carry the light

We are the generation
Who will stand and fight
In the midst of all the darkness
We'll carry the light

You are the light of the world
And the God of the cross!

You are the light of the world
And the God of the cross!

You are the light of the world
And the God of the cross!

You are the light of the world
And the God of the cross!

We are the generation
Who will stand and fight
Inn the midst of all the darkness
We'll carry the light

We are the generation
Who will stand and fight
Inn the midst of all the darkness
We'll carry the light

We are the generation
Who will stand and fight
Inn the midst of all the darkness
We'll carry the light

We are the generation
Who will stand and fight
Inn the midst of all the darkness
We'll carry the light

We are the generation
Who will stand and fight
Inn the midst of all the darkness
We'll carry the light
