

# Live Or Die Free

## (hed) P.e.

American made  
The terror displayed  
The false flags that waive  
Be afraid - be very afraid  
The murder - the fear  
The truth appears  
The vi-o-lence of change  
Is here  
The war is on  
To right the wrong  
To pass on the light  
The fight song is on  
We get em goin  
My people - you can't control em  
We psycho - we on parole  
And we just don't give a fuck  
Cuz we got nothing to lose  
But somethin to prove  
A job to do  
And that's fuckin you  
Luciferian inbred  
Bohemian draco-reptillian  
We be killin em  
Who are you to decide  
Whether we live or die  
Lizard! the how and the why  
Is irrelevant

We tired and we ready to riot  
We anarchists we must resist  
And we don't owe you shit  
We don't owe you shit  
Live or die free  
There's a fire in the white house  
And panic in the streets  
Now the youth brought up on  
Violence brought the system to  
It's knees  
The politicians and their

Generals  
Are all running for their lives  
One day of retribution  
For a lifetime of lies  
We know who you are  
We're not afraid  
We will not submit to  
De-humanization  
We refuse to be your slaves  
Babylon will fall  
And you will be held responsible  
For your crimes against  
Humanity  
So fuck off!  
We're tired and we're ready to riot  
We anarchists and we must resist
