

Cryin' All Night

Airplay

Babe, I'm calling you from miles away
as far apart we've both grown
babe, I've got something cold to say
Ooh - couldn't face you so I phoned
He called to tell that you were only a rehearsal
He'd found a real thing
and he didn't want to see you again
Sitting alone by the telephone she'd benn cryin' all night
the voice on the line sounded so unkind was she hearing him right?
Oh, cryin' all night
Babe, I know you hear me loud and clear
I know I'm getting through
No, I never took you seriously
I was practicing on you
He called to tell that you were only a rehearsal
He'd found a real thing
and he didn't want to see you again
Sitting alone by the telephone she'd benn cryin' all night
the voice on the line sounded so unkind was she hearing him right?
Oh, cryin' all night
This love is just an imitation
dealing with this situation
now I'm having reservation
He called to tell that you were only a rehearsal
He'd found a real thing
and he didn't want to see you again
Sitting alone by the telephone she'd benn cryin' all night
the voice on the line sounded so unkind was she hearing him right?
Oh, cryin' all night
Counterfeit love - just imitation
not what it appears
heart of steel too cold to feel
not worth the tears
the only thing she lost were her fears
Sitting alone by the telephone she'd benn cryin' all night
the voice on the line sounded so unkind was she hearing him right?
