She's So Fly

Cris Cab

She will only stay if you let her fly away
Once a caterpillar, now a butterfly
I?ve seen her fly fly fly fly
With them wings she?s so fine
I?ve seen her fly fly fly fly
Everywhere we goes people stop and look
They love the girl, man she looking so fly
When the broken wings got clipped she learns to fly again
She?s so fly
She?s so fly
She?s so fly
She?s so fly
When the broken wings got clipped she learns to fly again
She?s so fly
She?s the perfect 10
Maybe up to 11
Look closer, shoes so new
Like the mattress of a movie scene
She knows she?s the star
She?s so fly
We?ll undo it and it?ll make a bum
When she smile just turn me on
Like the worst in my favorite love song
She?s something like a phenomenon
She?s so fly
She said I never kissed a stranger
I said I never kissed an angel
I got this feeling that I wanna share
You?re the only one that can take me there
Once a caterpillar, now a butterfly
I?ve seen her fly fly fly fly
With them wings she?s so fine
I?ve seen her fly fly fly fly
Everywhere we goes people stop and look
They love the girl, man she looking so fly
When the broken wings got clipped she learns to fly again
She?s so fly
She?s so fly
She?s so fly

She?s so fly
She will only stay if you let her fly away
She?s so fly
She?s so fly
She?s got me dancing stupid

Guess all my words are useless
She knows just how to use it
Shakes her hips, get sushi choose it
And I hope it?s me
Girl you are all I see
The way you move in front of me
She?s so fly
So set your body free
And girl come close to me
She said I never kissed a stranger
I said I never kissed an angel
I got this feeling that I wanna share
You?re the only one that can take me there
Once a caterpillar, now a butterfly
I?ve seen her fly fly fly fly
With them wings she?s so fine
I?ve seen her fly fly fly fly
Everywhere we goes people stop and look
They love the girl, man she looking so fly
When the broken wings got clipped she learns to fly again
She?s so fly
She?s so fly
She?s so fly
She?s so fly
She will only stay if you let her fly away
She?s so fly
She?s so fly
When she catwalks just drive
Brazilian babies, she has more colors than the beeka
She?s so hot, baby the hell follows
Cuz they do it too tight, Marilyn Monroe
Seein Tenna, black magic woman
Ancient Cuban, European, middle eastern
All American but then in on the fantasy
Even girls are like dreams to me
She?s so fly
She?s so fly
She?s so fly
She?s so fly

When the broken wings got clipped she learns to fly again
She?s so fly
She?s so fly
She will only stay if you let her fly away
She?s so fly
She?s so fly
She?s so fly
