

No Celebration

Paradise Lost

Take my hand,
Hurray for the winters come
Cease my plans
Excuse me from the scenes of old I can meet you there? , I just don't care
On this new years day
With no celebration from me Understand
There's comfort with the wealth of gold
Increase demands
Release me from the scenes of old I can't make it clear you just won't hear
On this new years day
There's no celebration from me
