# When Stars Collide (Born Is He)

## Iced Earth

Look unto the days of warning
A night that the sky is burning
When stars collidePure mathematical perfection
Ancient pain feeds resurrection
When stars collideForged in flames, sacred fire
Born in eastern sands in guileBorn is he, ten millennial
After the clouding of man
Sincerest veneration
For he that vindicates the end of manSworn are we, ten millennial
After the clouding of man
Unleash abomination
As we accelerate the end of manLook unto the days of warning
A night that the sky is burning
When stars collidePure mathematical perfection
Ancient pain feeds resurrection
When stars collideForged in flames, sacred fire
Born in eastern sands in guileBorn is he, ten millennial
After the clouding of man
Sincerest veneration
For he that vindicates the end of manSworn are we, ten millennial
After the clouding of man
Unleash abomination
As we accelerate the end of manBorn is he, ten millennial
After the clouding of man
Sincerest veneration
For he that vindicates the end of manSworn are we, ten millennial
After the clouding of man
Unleash abomination
As we accelerate the end of man
